

**XIV MILANO FILM FESTIVAL EDITION**  
**(September 11-22 2009)**

**PRESS RELEASE**

Milan, July 4<sup>th</sup> 2009

**Three technical workshops in collaboration with SAE, digital filmmaking – workshop and competition.**

In collaboration with SAE, Milano Film Festival presents a competition dedicated to young non-professional filmmakers, in order to make a 3-minute-lasting video/reportage on the first festival day.

Participants will have to create the video/reportage using their own technological resources (camera and personal computer) and they will have to hand in the final work to the SAE Institute head office.

A commission of experts, composed by members of SAE, Milano Film Festival, and *esterni*, will choose the most ingenious and interesting video, able to best represent the atmosphere of the first festival day.

The winner will get a scholarship for the Digital Film Making course at SAE institute.

In order to provide the theoretical basis and the practical competence for the shooting of the video, a workshop will be held on Saturday September 5<sup>th</sup> at the SAE institute. The central topics will be: editing, shooting, shooting plan, distribution of the video on the web. The workshop will last 4 hours and a limited number of 30 participants will be admitted.

**3D Animation**

A free workshop will also be held for the lovers of animation technologies, for the creation and animation of a 3D object.

It will concern the technical basis of 3D modeling and animation's principles, from the most realistic to the most complex ones.

The workshop will last 3 hours and it will be held by professionals from the SAE institute during the Film Festival in a specifically reserved site.

**Post Produce Yourself**

A workshop to learn about the means and techniques to make a TV miniclip, green-back shooting, editing, composing and finalization of the film.

The aim of “Post Produce Yourself” is to help participants approach both digital film production and post-production worlds.

The workshop will last 3 hours and it will be held by professionals from the SAE institute during the Film Festival in a specifically reserved site.
